SUMMARY

- 3rd-year (6th semester) Computer Science student at SZABIST with proven experience in full-stack development, data analytics, and database management
- Skilled in Java, PHP/Laravel, and web technologies, delivered production-ready projects and real-world internships.

TECHNICAL SKILLS

Languages	Java · C · PHP · React Native · Assembly Language · Python	Frameworks	Laravel (MVC) · React Native
Frontend	HTML5 · CSS3 · JavaScript	Databases	PostgreSQL · MySQL
Tools & IDEs	Git · VS Code · IntelliJ IDEA · XAMPP · Android Emulator · Power BI · Data Visualization Figma	Concepts	DSA · OOP · Digital Logic Design

EDUCATION

Bachelor of Science in Computer Science (BSCS) . 2023 - Present . (3.3 CGPA)

Shaheed Zulfikar Ali Bhutto Institute of Science and Technology (SZABIST), Karachi

Relevant Coursework: Object-Oriented Programming · Data Structures & Algorithms · Database Systems · Digital Logic Design · Web Technologies · Software Engineering

Intermediate (Pre-Engineering) . 2021 - 2023 . (A-Grade)

The Citizens Foundation (TCF), Karachi

PROJECTS

Recipe Sharing Platform - Laravel (PHP) · MySQL · MVC Architecture . 2025 (January - February)

Role-based full-stack web app for creating, sharing, and discovering recipes built for users and admins.

- Implemented role-based authentication with separate user and admin dashboards using Laravel's auth system.
- Built Smart Ingredient Matching: users enter available ingredients and the system instantly generates all possible matching recipes.
- Admin panel covers full user management, recipe moderation, and content removal emphasizing clean UI flow and MVC best practices.

Student Management System - PHP · MySQL · XAMPP . 2025 (November - Decmeber)

Full-stack web application for managing academic records with multi-role access.

- Implemented complete CRUD operations with server-side validation, authentication, and role-based dashboards for admin and students.

QuestGuardAI - AI Civic Engagement Mobile App . 2026 (June)

Stack: React Native (Expo) · FastAPI · LangGraph · Google Gemini 1.5 Pro vision Python

- Built a mobile app where children complete real-world environmental missions in Karachi verified by AI photo proof.
- Architected a 3-agent LangGraph system (Mission Generator, Tip Agent, CV Verification) with a Human-in-the-Loop parent approval gate and gamified XP + badges rewards.

MovieExplorer - Cross-Platform Mobile App . 2026 (June)

Stack: React Native (Expo) · TMDB API · YouTube Data API

- Built a movie discovery app with live data, official trailers via YouTube API, cast info, ratings, and a personal bookmarks system for iOS and Android.

INTERNSHIP & PROFESSIONAL EXPERIENCE

Frontend Developer Intern · Elevo Pathways . 2025

Karachi, Pakistan

- Designed and developed a responsive sidebar navigation with Light/Dark mode toggle, improving cross-device user experience by 50%.
- Optimized UI components using HTML5, CSS3, and JavaScript, contributing to measurable page load improvements.

Data Analyst Intern · Market Brains . 2024

Karachi, Pakistan

- Cleaned and analyzed large market datasets, surfacing actionable insights that informed key business decisions.
- Built 2 interactive Power BI dashboards with KPIs and drill-down charts, cutting manual reporting efforts by 40%

VOLUNTEER WORK

- Brand Ambassador - TCF Coaching Support Program: Represented TCF on campus, mentored prospective students, and supported outreach initiatives.
- Campus Ambassador - TCF at SZABIST: Organized awareness events and bridged communication between TCF and SZABIST student community.

CERTIFICATIONS & ACHIEVEMENTS

- Google AI Essentials - Coursera
- Google Prompt Essentials - Coursera
- Data Analytics Internship Certificate - Market Brains
- Frontend Development Certificate - Elevo Pathways
- Outreach Training Program Volunteer - The Citizens Foundation (TCF)
- Coding Competition Certificates - Speed Coding, Debugging & Database Competitions
- Deloitte Job Simulation in Data Analyst

ADDITIONAL INFORMATION

- Languages: Urdu (Native) · English (Professional Working Proficiency)
- Interests: Competitive Programming, Open Source Exploration, Sketching, Badminton, Puzzle Solving
- Actively building GitHub portfolio with academic and personal projects.
